PROFESSIONAL SUMMARY

Cybersecurity and IT Infrastructure Professional with 10+ years of progressive experience supporting enterprise IT environments across networking, systems administration, and security operations. Recently completed the Cisco Networking Academy **Junior Cybersecurity Analyst Career Path**, with hands-on expertise in network defense, threat analysis, endpoint protection, and incident response. Proven track record of reducing security incidents, improving system availability, and supporting regulatory compliance in highly regulated environments. Strong foundation in ITIL practices, data analysis, and aligning technology solutions with business and operational goals.

CORE COMPETENCIES

Cybersecurity & Security Operations

- Security Operations Center (SOC) fundamentals
- Incident detection, analysis, and response
- Threat intelligence & cyber threat management
- Vulnerability assessment & risk mitigation
- Endpoint security & malware protection
- Log analysis, security monitoring & reporting
- Ethical hacking & penetration testing fundamentals

Networking & Infrastructure

- TCP/IP, OSI Model, DNS, DHCP, NAT
- LAN/WAN design, implementation & troubleshooting
- Cisco routers, switches & wireless networks
- Firewall configuration & VPN technologies
- Network monitoring & performance optimization (SolarWinds)

Systems, Platforms & Cloud

- Windows Server & Windows Client OS
- Microsoft 365 & Azure Fundamentals
- Endpoint & device management
- Virtualization technologies

Tools & Technologies

- Kaspersky Endpoint Security
- Firewalls, antivirus & access control solutions
- ServiceNow (ITSM)
- ManageEngine
- Power BI
- VoIP systems

Programming, Data & Automation

- Python (security scripting fundamentals)
- SQL & data querying
- HTML, CSS, JavaScript
- C++

Professional & Governance Skills

- ITIL-based service management
 - Incident documentation & audit reporting
 - Regulatory compliance support
 - Disaster recovery & business continuity planning
 - Stakeholder communication & technical training
-

PROFESSIONAL EXPERIENCE

IT Systems & Network Technician

Eswatini Civil Aviation Authority (ESWACAA) – Matsapha, Eswatini

Aug 2010 – Apr 2024

- Delivered Tier 1–2 technical and network support to **200+ enterprise users**, consistently achieving **98% end-user satisfaction** while meeting SLA targets.
- Implemented and managed **endpoint protection (Kaspersky Endpoint Security)** across the organization, contributing to a **40% reduction in malware and security incidents**.
- Supported firewall upgrades, access control implementation, and system hardening initiatives aligned with cybersecurity and aviation regulatory standards.
- Monitored, maintained, and optimized **LAN/WAN infrastructure using Cisco networking equipment**, reducing unplanned network downtime by **25%**.
- Assisted in **vulnerability assessments, security audits, and risk mitigation activities**, strengthening compliance readiness in a highly regulated aviation environment.
- Managed the full lifecycle of **500+ IT assets**, ensuring accurate inventory records, compliance, and optimized hardware utilization.

- Executed disaster recovery, backup, and restore procedures, maintaining **99.9% data integrity** and minimizing operational disruption.
 - Produced detailed incident reports, root cause analyses, and technical documentation to support continuous service improvement.
-

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

Cisco Networking Academy – Junior Cybersecurity Analyst Career Path (2025)

- Network Defense – Certificate & Badge
- Cyber Threat Management – Certificate & Badge
- Endpoint Security – Certificate & Badge
- Ethical Hacker – Certificate & Badge
- Introduction to Cybersecurity – Certificate & Badge
- Networking Devices and Initial Configuration – Certificate & Badge
- Networking Basics – Certificate & Badge

Key Competencies Gained:

- Threat analysis & incident response
- Network, endpoint & perimeter security
- Vulnerability scanning & exploitation fundamentals
- Penetration testing lifecycle
- Cloud, mobile & IoT security concepts
- Security reporting & stakeholder communication

Additional Certifications

- ITIL Foundation (Axelos) – 2023
 - Applied Data Science – WorldQuant University – 2021
 - Power BI Specialist – Exodus Expert – 2025
 - CISSP (Foundational Knowledge) – Alison – 2022
-

EDUCATION

Bachelor of Science in Computer Science *(Expected 2027)*

Goldsmiths, University of London

Diploma in Computer Engineering

Mananga Management Centre – 2014

SELECTED PROJECTS

- **Domain Migration & Security Hardening** – Migrated users to a centralized domain environment, improving access control, authentication security, and system availability.
 - **Enterprise Network Design & Deployment** – Designed and implemented a secure LAN infrastructure for a head office environment, incorporating segmentation and best-practice security controls.
 - **Secure Web-Based Database System** – Developed a database-driven system supporting compliance, audit readiness, and controlled data access.
 - **Client-Facing Website Development** – Designed and deployed a production website using secure hosting and web security best practices.
-

LANGUAGES

- English – Fluent (C2)
 - siSwati – Native (C2)
 - French – Elementary (A2)
-

ADDITIONAL INFORMATION

- Valid Driver's License
- Open to opportunities in Cybersecurity, SOC (Tier 1), NOC, IT Infrastructure, and IT Security Support roles
